Termites: A Danger to Your Home

Termites can destroy properties worth millions of dollars every year. They attack wooden support structures and can eat important documents. Traditional termiticides may involve drilling holes around the property area and pumping chemicals into the soil. These cause a variety of side effects such as disturbance or property damage. In comparison, termite bait system is the ideal protection for your home.

Xterm® Termite Bait System

Xterm® is the fastest termite colony eradication baiting system, which removes termites in 4 – 6 weeks. It is environmentally friendly, providing a peace of mind and protects your home with confidence.
