Revolutionary Termite Baiting Technology

Termites Threat

Termites cause the destruction of millions of dollars of property every year. Traditional termiticides often involve the drilling of holes in and around the property, followed by the pumping of large volumes of liquid chemical. Not only is this detrimental to your home, it can also have other unpleasant side effects.

Solution: Xterm™

Xterm™ is a revolutionary termite baiting technology, incorporating a highly palatable matrix infused with a super efficient, environmental friendly active ingredient.

Xterm™ uses a minimal amount of chemical to eliminate termite colonies by exploiting the termites' natural food sharing behaviour.

Xterm™ Above-Ground
Termite Baiting System

Xterm™ In-Ground
Termite Baiting System

Why choose Xterm™?

Fast process

Xterm™ is the fastest termite colony eradication baiting system on the market (eradication time of 4 to 6 weeks).

Environmentally friendly

With safety in mind for your home, children and pet. Have a peace of mind and protect your home with confidence.

Proven efficiency

Xterm™ is one of the proven means of eliminating termite colony, which is usually situated deep in the ground away from the building which it is attacking.

Drill-free installation

Above Ground bait stations are mounted using adhesive tape and the In Ground bait stations are inserted into pre-dug cavities on a landed property.

Where and how to get Xterm™?
